

# Roche MSDS for Enzymatic kits (Yellow line)

## **1. How to obtain the SDS for the Roche Enzymatic line**

The Roche SDS can be downloaded directly from the Roche general website for documents:

<https://pim-eservices.roche.com/eLD/web/pi/en/home>

Unfortunately, this webpage does not work as it should, so when requesting one of the Id numbers for the Enzymatic line there is no document available.

However, it is possible to obtain the relevant SDS by using a so-called “deep link”, for example L-ascorbic acid in English:

<https://pim-eservices.roche.com/DownloadDocument/SDS/DE/en/10409677035>

By replacing the Id # at the end with any other product (11 digits), it is possible to obtain any SDS in English:

– <https://pim-eservices.roche.com/DownloadDocument/SDS/DE/en/xxxxxxxxxxx>

Please copy this address in your web browser. You will get an error message, but the replace the 11 digits with the Id # of the requested product and you will obtain the SDS.

For the other languages, please change the name of the language in the link:

- <https://pim-eservices.roche.com/DownloadDocument/SDS/DE/en/xxxxxxxxxxx> for English
- <https://pim-eservices.roche.com/DownloadDocument/SDS/DE/de/xxxxxxxxxxx> for German
- <https://pim-eservices.roche.com/DownloadDocument/SDS/FR/fr/xxxxxxxxxxx> for French
- <https://pim-eservices.roche.com/DownloadDocument/SDS/IT/it/xxxxxxxxxxx> for Italian
- <https://pim-eservices.roche.com/DownloadDocument/SDS/PT/pt/xxxxxxxxxxx> for Portuguese
- <https://pim-eservices.roche.com/DownloadDocument/SDS/ES/es/xxxxxxxxxxx> for Spanish
- For other languages, please follow the ISO classification for languages (ISO 639-1)
